My neighbour has turned a traitor to Mercedes and opted for a [used BMW X5](#) . I have to admit, I have always loved my Range Rover 4 wheel drive but this 3.0 Diesel really is a lovey bit of kit. It has 20 inch alloy wheels, Professional Sat Nav with Bluetooth and is in the special order paint called Carbon Black. He has just bought it from a car dealer in Kent called Big Motoring World. Apparently they specialise in used BMW X5 series and he reckons he was overwhelmed with the unrivalled choice and ability to browse over 450 cars at his leisure.
